

## Test report according to EN 10 204 - 2.2

We herewith certify that the delivered product is according to following conditions.

- |  |   |
|--|---|
| 1.) Product:                                     | Conduit system,   |
| 2.) Supplier:                                    | <b>Fränkische Rohrwerke<br/>Gebr. Kirchner GmbH &amp; Co. KG<br/>Hellinger Str. 1<br/>97486 Königsberg/Bayern</b> |
| 3.) Material:                                    | Polyolefin  |
| 4.) Profile:                                     | DIN EN 61386-24   |
| 5.) Range of application:                        | Conduit systems buried<br>underground DIN EN 61386-1 / DIN EN 61386-24  |
| 6.) Type designation:                            | <b>Kabuflex R plus Typ 450</b>  |
| 7.) Classification according<br>to DIN EN 61386: |   |
| 8.) <b><u>Test</u></b>                           |   |
| 8.1.) compressive strength:                      | DIN EN 61386-24 par. 6.1.2  |
| 8.2.) impact strength:                           | DIN EN 61386-24 table 102 / -5°C  |
| 8.3.) minimum temperature:                       | DIN EN 61386-24 nicht erklärt   |
| 8.4.) maximum temperature:                       | DIN EN 61386-24 nicht erklärt   |
| 8.5.) bending behaviour:                         | DIN EN 61386-24 par. 6.1.3  |
| 8.6.) Glow-wire test:                            | DIN EN 61386-24 nicht erklärt   |
| 8.7.) Dimensions:                                | DIN EN 61386-24 table 101   |
| 8.8.) Halogen-free                               | DIN VDE V 0604-2-100  |
| 8.9.) Smoke density:                             | not explained   |

This data do not dispense the buyer from his controls on receipt and do not have the meaning of guaranteeing the suitability of the product for a concrete application. We guarantee the characteristics of our products according to contract within the scope of our General Terms of Business.

Best regards

i. A. Bodo Schmidt
