

Agricultural drainage

FF-drän

Flexible drainage pipe (corrugated) made of PVC; colour: yellow

Technical data

Application:	in many fields of drainage, e.g. civil engineering, gardening and landscaping, cemeteries, agricultural drainage, etc. Not suited for building drainage according to DIN 4095!						
Material/raw material:	PVC-U (polyvinyl chloride)						
Specification:	drainage pipe according to DIN 1187 and Ö-Norm; externally monitored every six months						
Nominal diameter (DN):	50	65	80	100	125	160	200
Outside diameter: D _O [mm] approx.	50	65	80	100	125	159	199
Inside diameter: D _I [mm] ≥	44	59	72	92	115,5	146	182,5
Bend radius: [m]	0,35	0,35	0,35	0,50	0,50	0,50	0,50
Coil length: [m]	50 200	50 150	50 100	50 100	50	50	45
Perforation rows/ arrangement:	≥ 5 / totally perforated pipe, 360 degree arrangement; also available as unperforated version						
Perforation width: [mm]	1.2 ± 0.2						
Total perforation area: [cm ² /m]	≥ 8						
Pipe stiffness: [kN/m ²]	≥ 4 (SN 4)						
Connections:	with coupling
