

KNIPEX QUALITY – MADE IN GERMANY

12 62 180

KNIPEX ComStrip

**THE COMPACT WIRE STRIPPER FOR
BEGINNERS AND PROFESSIONALS**

► **Perfect entry-level model:** Strips solid, multi-stranded and finely stranded conductors from 0.2 to 6 mm² with standard insulation without any need for manual adjustment

► **Fine adjustment enables precise setting of the cutting depth** for special materials or temperature conditions

➤ **With cable cutter** for solid conductors up to 2.5 mm², extended cutting capacity for finely stranded conductors up to 6 mm²

THE SIMPLE ENTRY-LEVEL MODEL – NOW IN A MODERN DESIGN

Durable blades, can be replaced when worn

Compact and handy tool with slim head for use in hard-to-reach work areas

With adjustable length stop from 6 to 18 mm for consistently accurate stripping lengths

Low-effort work and maximum transmission of force due to ergonomic two-component handle with soft grip zone

➤ **Robust and lightweight** thanks to tool body made of glass fibre reinforced plastic
