Professional grade, 3in1 wood protection

Premium wood protection stains with excellent protection against moisture

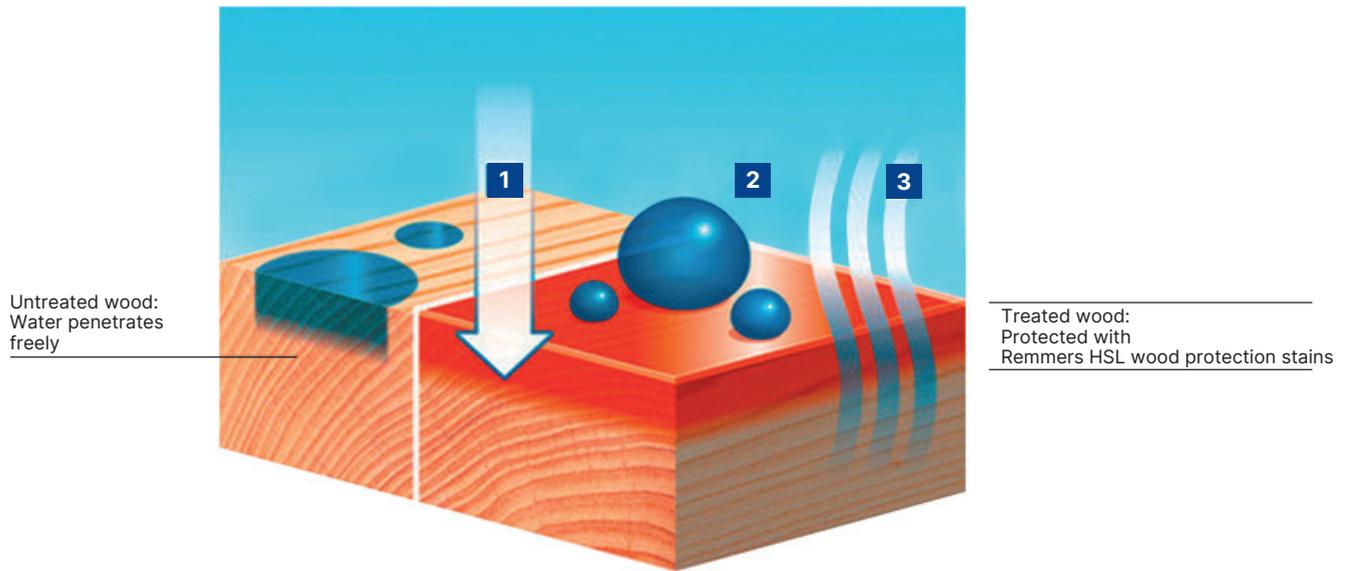

The 3in1 wood protection stains from Remmers combine impregnation, primer and stain in a single product and offer numerous advantages: they save time, don't require laborious brush application and reduce the material costs per m². The breathable, matt stains reliably protect the wood against UV radiation and moisture: the excellent physical protection against moisture in conjunction with design-based wood protection measures reduces the risk of blue stain and rot.

After a long life and uniform weathering, the wood can usually be repainted without sanding, leaving the wood looking good as new.

Protect wood with 3in1 moisture protection

1 Impregnation effect: Saturates the wood to protect against moisture

2 Water-repellent: Wet surfaces dry quickly

3 Diffusion-open protective film: Moisture can escape

Protection against weather conditions (structural wood protection and moisture protection of the product) reduces the risk of development of blue stain and rot.

Impregnation, primer and stain combined in just one product

Why Remmers 3in1 stains?

- ✓ Only one product needed for the complete coating system
- ✓ Saves time and money
- ✓ Very good service life and easy renovation without sanding

Aqua HSL-36/m Premium Wood Protection Stain 3in1

Efficient, fast-drying, water-based premium wood stain with excellent protection against moisture and UV for exterior wood

HSL-31/m Premium Wood Protection Stain 3in1

Solvent-based premium wood stain with excellent protection against moisture for exterior wood

HSL-32/m Premium Wood Protection Stain 3in1

High-build, hydrophobic, biocide-free premium wood stain to reduce susceptibility to wood discolouration, including in sensitive areas
