versatile.
Tailored to
individual wants
and needs.

SENSUOUS AND COLOURFUL

1

b:me is a captivating invitation to make bathrooms more poetic, more colourful and more homely. Inspired by the play of light and shade on endless sand dunes, Studio Besau-Marguerre has created a design line that is both avant-garde and timeless at once.

2

3

4

1. Vanity unit with innovative look
2. Cabinet combination with bicolour effect (Terracotta/Sandstone)
3. Ample storage space
4. Wall shelves with concealed fixings

1

b:me is an invitation to get creative with form and colour. The mineral cast washbasins and elegantly rounded cabinets are a core element of the design line. Their contours are identical and combine to form a natural unit. Besides giving the vanity unit a very distinctive look, the "waist" between the basin and cabinet also protects the cabinet from water.

The handleless rounded fronts with tip-on/soft-close mechanism underscore the minimalist design of the **b:me** line.

1. Individual custom colours, incl. bicolour option
2. Combination of sideboard and wall shelf
3. Organic forms combined with clear geometry
4. Mirror cabinet with rounded carcass-mounted LED lights
5. **b:me** defines a new, modern kind of cosiness

2

3

4

5

**BOLD.
EXPRESSIVE.
MODERN.
COSY.
b:me.**

b:me is defined by soft forms that pair perfectly with colourful bathroom design – even when the fronts are selected in neutral shades like White or Anthracite.

1

2

COLOURFUL PERSPECTIVES FOR DREAM BATHROOMS BIG AND SMALL

1. Vanity unit with wall mirror and shelf in same colour as fronts
2. Washbasin with generous depth

2

1. Perfect for a guest bathroom or tiny house
2. Efficient washbasin geometry
3. Minimalist and space-saving

3

BIG IDEAS FOR SMALL SPACES THE CORNER SOLUTION FROM b:me

1

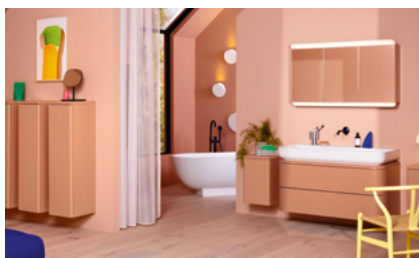

2

b:me BROADENS THE HORIZONS FOR NEW DESIGN OPTIONS

1. Compact washbasin and storage solution for small rooms
2. Maximum convenience, minimum space requirement

HARMONIOUS AND STYLISH

1

The precise 45° bevelling on the pullouts and doors of the **Accura** furniture is key to the handleless and linear look that defines the elegance and simplicity of this new sys20 design line. The choice of materials and finishes is carefully coordinated to create a harmonious and cosy atmosphere that makes the bathroom feel like home.

2

1. Spacious double vanity: 1400mm
2. Asymmetric version with glass door on either left or right side

1. Variable interior organisation
2. Fronts and doors with slender edges
3. Elegant fluted glass doors
4. Tall cabinet with shelves and tilt-out laundry hamper

The new **Accura** design line provides lots of functional storage space in and around the vanity: roomy drawers and pullouts under the washbasin, elegant add-on units with a fluted glass door, a tall cabinet complete with tilt-out laundry hamper and a mid-height cabinet. Cleverly designed organiser systems help keep the bathroom in perfect order.

ACCURA TURNS
NEATNESS INTO
A PLEASURE

1

2

WASHBASINS WITH CLEAN LINES IN 21 VARIANTS

1. Double washbasin (1400mm) in white
2. The same washbasin in taupe

4

The Accura collection includes seven ceramic washbasins in widths ranging from 600 to 1400mm, available in a choice of glossy white, matt black or taupe. And because they can be combined with selected lacquer fronts in matt, ultra matt or high gloss as well as two real wood veneers, Accura can be used to express a huge variety of individual design preferences.

1

2

3

1. Illuminated mirror with LED perimeter lighting
2. Fluted glass door with anthracite-coloured aluminium frame
3. Precision-cut 45-degree bevelling
4. Asymmetric vanity; width: 1100 mm

1

2

3

4

WELLBEING BOOSTER: ATMOSPHERIC LIGHTING AND SOPHISTICATED DETAILS

1. Mirror cabinet, size matched to width of vanity
2. Mid-height cabinet with glass shelves
3. Functional down to the smallest detail
4. Mirror cabinet carcass in same colour as front

SMART AND INTRIGUING

1

Vry is modern in design, intriguing in function and pleasing in price. Like all the sys10 lines, the young and refreshing bathroom furniture series is also available for superfast delivery. The ceramic washbasins come in three widths: 630, 930 and 1230mm. The 1230mm option is also available as a double washbasin.

2

3

4

1. Ceramic washbasins with plenty of ledge space
2. The straightforward linear design makes selecting matching mirror cabinets easy
3. Aluminium frame with rounded edges
4. Striking: the frame creates a graphic effect

1

2

Variable and practical. Thanks to the groove in the side struts, various accessories can be hooked into place wherever needed and repositioned just as quickly. The stylish handle solution for the drawer and pullout is designed for convenience.

3

VRY COMBINES CLEAR FORMS WITH SMART FUNCTIONS

1. Accessories are simply clipped into place
2. Relaxed loft atmosphere even in small spaces
3. Light fronts accentuate Vry's graphic impact

1

3

2

4

The aluminium frame in matt black accentuates the fine edges of the ceramic washbasins. The vanity cabinets are available in two versions: a drawer at the top and either a pullout or an open shelf compartment underneath. Straight lines and clarity, clever details and practical storage space: thanks to its special qualities, Vry can be used to create an impressive loft atmosphere even in small rooms.

URBAN, CASUAL,
CHARMING AND
FUNCTIONAL

- 1. + 2. Single or double vanity, width: 1230mm
- 3. Vanity, width: 930mm
- 4. Ideal for guest bathrooms too: vanity, width: 630mm

FUNCTIONS

REFRESHING & EVEN MORE VERSATILE

Eqio Update. One of burgbad's most popular series has been extended with some attractive new additions. The new console solutions increase the creative scope for your bathroom planning with beautiful ceramic countertop basins. Whether the project is a new build or a renovation, Eqio is now even more versatile when it comes to adapting to individual preferences and space situations. The series is suitable for any ambience, any sized space and any furnishing style.

1. Ceramic countertop basin with
360mm diameter

Typical Eqio: the Blue Angel ecolabel for top-quality washbasins and furniture. A refreshing design, pleasing prices and superfast delivery times. The series has a strong sense of order. On a large and small scale. Both in the pullouts under the washbasin and in the cabinets.

In future, the basket for the tilt-out laundry cabinet will also be available in hardwearing fabric. The new fabric basket for the small shelf element is a quick and convenient option for storing bathroom items.

1

2

1. Practical fabric basket
2. Various options for additional storage space
3. Door hinged on left or right as required
4. Roomy tilt-out laundry hamper in fabric

3

INNOVATIVE TRAP: MORE HYGIENE FOR THE BATHROOM.

Unpleasant smells coming from the trap or overflow? Or even a blocked drain?

So far, it's been impossible to completely prevent such problems because conventional space-saving traps have large, inaccessible areas that can't be cleaned. Over time, biofilms build up there – a breeding ground for bacteria, germs and viruses which then cause unpleasant smells.

INTELLIGENT OVERFLOW PROTECTION FOR ANY WASHBASIN

The new trap comes with a patented stopper that replaces the overflow hole. As a result, concealed cavities are no longer required. The stopper is designed so that the water drains automatically before the washbasin can overflow. The added bonus of this innovation: the clever overflow protection is suitable for countertop basins as well.

THE STOPPER:

- safe and controlled filling
- suitable for countertop basins as well

But that's not all: the water that flows into the basin from the tap creates aerosols that can contribute to the transmission of harmful organisms.

And if the trap gets blocked as well, it's hard to enjoy even the most beautiful bathroom. Although chemical drain cleaners usually do the trick fast, they pollute the wastewater and therefore the environment too.

In Germany alone, approx. 20,000 tonnes are used every year.

Thanks to the innovative new trap from burgbad, plungers, citrus or chemical drain cleaners will be largely obsolete in the bathroom in future.

Because the water seal in the trap is only approx. 2cm under the valve ring, it can be cleaned effortlessly at any time, preventing biofilms and unpleasant smells in next to no time.

THE MOST IMPORTANT BENEFITS OF THE TRAP:

odour-free

eliminates blockages

easy to clean

space-saving

TRAP + STOPPER: MORE HYGIENIC, SAFER, SPACE-SAVING

The short distance the water drops before reaching the trap (2cm instead of 25 – 60cm) means fewer aerosols are produced. And because the new trap doesn't have any cross-pieces or edges, blockages are largely eliminated. It also results in up to 30% more space in the upper pullout.

S USTAIN- ABLE

Taking responsibility.
For people,
the environment and the climate.
The world's first climate-neutral
bathroom furniture
manufacturer as per RAL criteria.
Blue Angel for Eqio.
5+5 guarantee.

TAKING RESPONSIBILITY

As one of the world's leading manufacturers of top-quality bathroom furniture, we believe we have a special responsibility for people, nature and the climate.

VERIFIABLY SUSTAINABLE.

What reassurance do your customers have that bathroom furniture from burgbad is produced sustainably? The longevity and approved quality of our products is just one of many aspects.

Until now we have granted a voluntary 5-year guarantee on our bathroom furniture. From mid-2023 your customers will be able to extend the guarantee period by another 5 years via a simple online registration process. Our new **5+5 guarantee** underscores the confidence we have in the top-quality products from burgbad.

In order to ensure this high level of quality, we regularly subject our products and production to strict inspections by external test institutes. The "Golden M" of the German Quality Assurance Association for Furniture (DGM), for instance, has been giving you and your customers the

peace of mind that comes with certified quality since 1992. All our furniture is PEFC-certified, meaning that only wood sourced from sustainably managed forests is used.

SETTING A SUSTAINABLE EXAMPLE.

In 2016, burgbad became the world's first climate-neutral bathroom furniture manufacturer. Right from the start, our main goal in doing so was to reduce carbon emissions.

Since 2020, we have geared all the furniture ranges produced in Schmallenberg and Greding towards the "Furniture Made in Germany" label.

With the **BLUE ANGEL** ecolabel for Eqio (from our sys10 range), we've gone one step further: we deliberately chose this inexpensive collection to prove that cost-conscious production and sustainability are by no means mutually exclusive.

www.blauer-engel.de/uz38
