

NEX10®

COMPACT.
FLEXIBLE.
LOW-PIM.

RF Connectors and Jumper Cables
for Mobile Communications: NEX10®.

CONNECTORS FOR SMALL CELL APPLICATIONS

The NEX10® Series

Ever-increasing amounts of data have made further developments of global mobile networks essential. Above all, the development of 5G – the next generation of mobile communications – is creating new and more diverse tasks for the mobile communications industry.

The new NEX10® connector system* was developed to meet the existing and future demands of these upcoming small cell mobile networks. The NEX10® interface offers excellent PIM performance in a robust design and compact size.

*Produced under license

Electrical Parameters

Frequency Range	DC to 20 GHz
PIM (Passive Intermodulation)	≥ 166 dBc @ 2 × 43 dBm
Return loss (typ.)	≥ 36 dB @ DC to 4 GHz ≥ 34 dB @ 4 GHz – 6 GHz ≥ 30 dB @ 6 GHz – 10 GHz ≥ 20 dB @ 10 GHz – 20 GHz
Power handling	100 W (@ 2 GHz, 85 °C)
Mating cycles	≥ 100
Impedance	50 Ohm
Recommended torque / screw type	1.5 Nm
Degree of protection	IP68 (1 m, 24 hours)

The NEX10® interface is perfect for applications, such as small cells, distributed antenna systems (DAS) and MIMO antennas. With the optional push-pull and screw type locking mechanisms, this connector series is suitable for indoor and outdoor applications.

NEX10[®] JUMPER CABLES

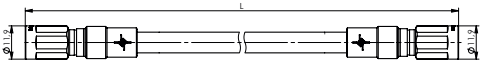

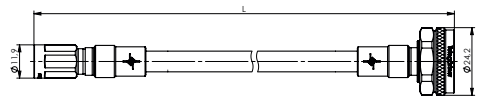

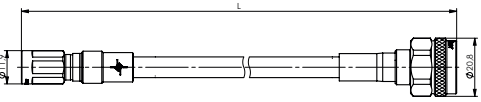

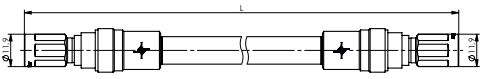

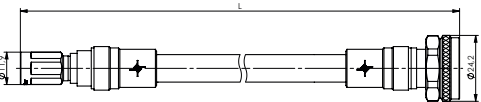

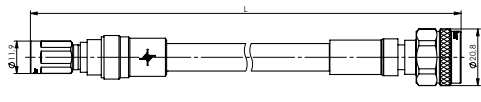

Besides high-quality connectors for cables and devices, Telegärtner also offers factory-made jumper cables with the new NEX10[®] connector series*, following the highest quality standards.

Adding NEX10[®] jumpers to the portfolio makes Telegärtner the perfect partner for components in a wide range of mobile communications applications due to a full portfolio of all common mobile communication connectors. Telegärtner's convincing service enables customer-specific solutions as well as fast delivery times – even for small batch sizes.
