ERLEBEN SIE DIE NATÜRLICHE QUALITÄT VON SCHURWOLLTEPPICHEN

Schurwolle unterscheidet sich deutlich von herkömmlicher Wolle. Sie wird ausschließlich von lebenden und gesunden Schafen gewonnen. Dadurch bleiben die besonderen Eigenschaften der Fasern vollständig erhalten. Teppiche aus Schurwolle zeichnen sich durch ihre hohe Widerstandsfähigkeit und außergewöhnliche Lebensdauer aus. Gleichzeitig überzeugen sie durch ihre Natürlichkeit, da bei der Verarbeitung weitgehend auf chemische Zusätze verzichtet wird.

Als nachwachsender Rohstoff ist Schurwolle umweltfreundlich und trägt zu einem bewussteren Wohnen und Arbeiten bei. Sie unterstützt ein angenehmes Raumklima, da sie im Winter Wärme speichert und im Sommer kühlend wirkt. Das natürliche Wollfett schützt vor Feuchtigkeit und Schmutz, wodurch die Pflege des Teppichs erleichtert wird. Zudem ist Schurwolle schwer entflammbar und farbbeständig, was zusätzliche Sicherheit und Beständigkeit gewährleistet.

Ein Teppich aus Schurwolle verbindet zeitlose Eleganz mit Langlebigkeit und ist damit eine nachhaltige Entscheidung für jedes Interieur.
